

DESCRIPTION

Fixed caliper with 4 opposed pistons, realized by semicalipers joined by bolts. Pads are supported by one clip which allows a quickly pads remove.
Construction Material: Aluminium Alloy
Hard Oxidation.
Operating fluid: brake fluid DOT4.

PADS SHAPE AND DIMENSIONS

TECHNICAL CHARACTERISTICS

Piston number and diameter:	4	24mm	Average pad surface (1 pad):	11.4 cm ²
MAX working pressure:		40bar	Weight (with sintered pads):	0.262 Kg

CONFIGURATION

CHARACT. CODE CALIPER	BODY COLOR	MOUNT. SIDE	USABLE DISCS THICKNESS
